ALASKA ROUTE IS GIVEN UP

American Car Will Sail Direct for Siberia to Continue Race.

Seattle, Wash., March 30.—The American car in the New York-to-Paris automobile race, with George Schuster, driver; George Miller, machinist, and Captain Hans Hanson, arrived in this city this morning on board the steamer City of Puebla. Owing to advice that had been received regarding the condition of the winter trail between Valdez and Nome, the Alaska part of the trip will be abandoned and the party will probably take the first ship from Seattle to Vladivostok and go through Siberia by the southern route.

Captain Hanson will have charge of the party on the Siberian trip. He recently returned from that country, in which he was located for ten years, and has crossed Siberia both by the northern and southern routes. Captain Hanson stated tonight that the final plans for the remainder of the trip will not be determined until advice is received from New York, but has recommended the southern route through Siberia by way of Vladivostok, and expects to receive instructions to sail from Seattle on the next steamer leaving for that port. If the southern Siberia route is adopted the entire trip through Siberia will be made over the convict military road. If the northern Siberia route is used it will be necessary to cross over 1,000 miles of country where there are no roads. If instructions are received to take the northern Siberia route the party may be held in this city for an indefinite period, as the scheme to take the big automobile over Alaska has been decided to be impossible, on account of spring overflows that are already reported and in this event it would be necessary to take boat either for Nome or direct to East Cape.

Granger, Wyo., March 30.—The German car reached here at 5 o'clock tonight and will remain until Tuesday morning.

Ely, Nev., March 30.—The French car arrived at Ely at 9 o'clock last night and left for Goldfield at 8:30 o'clock this morning.

S.S.S. DRIVES OUT RHEUMATISM

A good liniment or plaster, or some good home remedy will usually give temporary relief from the pain of rheumatism, but the disease is more than skin deep and cannot be rubbed away, nor can it be drawn out with a plaster. Such treatment neither prevents nor cures; the excess of acid, which produces rheumatism, is still in the blood and the disease can never be cured while the circulation remains saturated with this irritating, pain-producing uric acid poison. The trouble will shift from place to place, settling on the nerves and causing pain and inflammation at every exposure or after an attack of indigestion or other irregularity. When neglected or improperly treated, rheumatism becomes chronic and does not depend upon climatic conditions to bring on an attack, but remains a constant, painful trouble. S. S. S. drives out rheumatism by neutralizing and expelling the excess of acid from the blood. It purifies and invigorates the circulation so that instead of an acid-laden stream, constantly depositing uric acid in the joints, muscles, nerves and bones, the entire system is nourished and made healthy by rich, life-giving blood. Book on Rheumatism and any medical advice desired will be sent free to all who write.

AMATEUR LEAGUE STARTS

Meeting Held at Y. M. C. A. and Plenty of Baseball Enthusiasm is Shown.

At a meeting held at the Y. M. C. A. last evening the preliminary arrangements for a city amateur baseball league were made. In all seven teams were represented and it was the consensus of opinion that only strictly amateur ball be played. A number of those interested in professional ball were present, but it was decided to take up the matter of professional ball at a later date.

A further meeting of the amateurs will be held next Saturday afternoon at the Y. M. C. A., when it is proposed to make final arrangements for this league. This league will play Saturday, Sunday and holiday ball, although the schedule will have to be arranged whereby the Y. M. C. A. and Z. C. M. I. will not be called upon to play on Sundays. Both these teams are unopposed to Sunday ball and will enter the league only with the understanding that they will not be called upon to play on that day. Those named were: C. C. Carruthers, representing the O. S. L.; D. N. Hood, Salt Lake Hardware; Stanley May, Rexalls; J. D. Bloomquist, Z. C. M. I.; Elwood Brown, Machinery & Supply Co.; J. N. SHARMAN BACK FROM COAST

Pilot of American Car From Ogden to Frisco Tells of Trip.

Sam Sharmen, the automobile dealer who acted as a pilot to the American car from Ogden to San Francisco is home. Sharmen returned by the way of Los Angeles. Sharmen says they had a great trip from Ogden to Frisco and that the Italian car would have a hard job to beat their time over this part of the route. From Goldfield to Frisco the car traveled a greater part of the day and night, and as some good roads were encountered on this part of the trip the fastest work on the route across the country was accomplished.

When the American car left Cobre, Sharmen with his pilot car was delayed on account of tires. He resumed his journey twenty-four hours behind and overtook the American car half way between Elko and Goldfield, where the machine had broken down. It was Sharmen who went ahead and brought back repairs from Goldfield. On reaching the California line Sharmen took a stage to the American car and rode with Brinker into Frisco. Sharmen says the trip was one of the greatest he ever had in his life and that he would not have missed it for all the grief and trouble.

PICKS JOHNSON TO OPPOSE TAFT

Clarence K. McCormick Says Financial Interests Prefer Minnesota Man.

Clarence K. McCormick and Walter G. Flier returned Sunday night from an all-winter's stay in New York. Both say they are here to stay some time. Politics, both contend is now beginning to dominate the markets and they look to see things drag along until after the presidential nominations.

"A great change in sentiment is now taking place in the east," said Mr. McCormick, "and, instead of Taft and Bryan as nominees of the two big parties New York sentiment is now strongly favoring Taft for the Republicans and Johnson of the Democrats."

"Financial interests realize that Johnson would likely be as radical in his treatment of big corporate interests as would Taft or Bryan, but the sentiment is that he would display better judgment than either Taft or Bryan. Johnson is gaining in popularity every day and I

"I do not look for much of a change in business or stock market conditions until after the national conventions have been held; then things will begin to move and the effects of the election will be discounted long before it is held."
